

PRODUCT INFORMATION

DH FINE WELDING TIPS

CCDH01

DESCRIPTION

DH fine welding tips are used in the gas welding process using the oxygen/acetylene process and designed for use with a lightweight mixer.

FURTHER INFORMATION

Weldability also offers the more popular Type 3, 4, and 5 ranges of gas cutting and welding equipment which have become something of an industry standard, with 3/8" BSP fittings to oxygen/acetylene hoses. Lightweight Type gas equipment boasts smaller size standard fittings (e.g. 1/4" BSP to oxygen / acetylene hoses) and is a less bulky alternative to the larger type.

Shanks, Mixers, Cutting Attachments and Cutting and Welding Nozzles are available in all types.

These nozzles originally connected to an 'FN' type neck, but now are more commonly used with a lightweight shank (BB2001), lightweight mixer (BB2003) and DH type neck.

ARTICLES & ACCESSORIES

Part Number	Product Description
CCDH01	NO. 1 DH TYPE NOZZLE
CCDH02	NO. 2 DH TYPE NOZZLE
CCDH03	NO. 3 DH TYPE NOZZLE
CCDH05	NO. 5 DH TYPE NOZZLE
CCDH07	NO. 7 DH TYPE NOZZLE
CCDH10	NO. 10 DH TYPE NOZZLE
CCDH13	NO. 13 DH TYPE NOZZLE
CCDH18	NO. 18 DH TYPE NOZZLE
