PRODUCT INFORMATION

ProtectoArm 3m Extraction Arm

SUMMARY

SUMMARY

The Protecto range of 150mm diameter extraction arms are available in different lengths. Due to the spring-supports, the extraction arm is easily positioned and is self-supporting when located into the adjusted position. This is the ideal extraction arm when you need to extract fumes and dust over a large working area.

TARGET APPLICATIONS

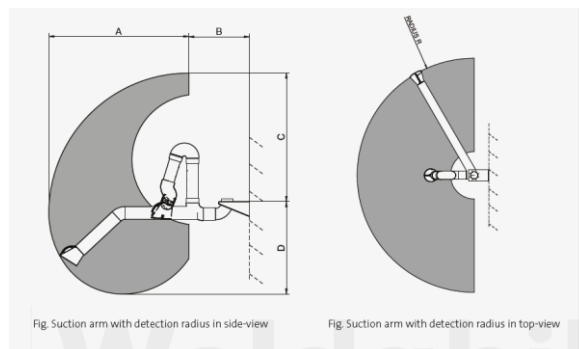

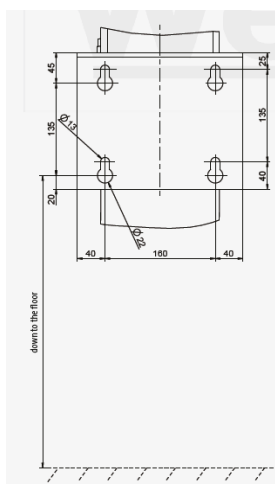

The Protecto Arm is suitable for all areas where capture at source is required. Typical uses for the extraction arm is capturing welding fumes, grinding, vapours etc.

FURTHER INFORMATION

Available in 150mm diameter & 200mm diameter on request. The Protecto range of extraction arms comes complete with wall mounting bracket; suction hood with integrated damper. The arms can either be connected to individual fans or to central suction and filter systems.

ARTICLES & ACCESSORIES

Part Number	Product Description
EXT97602	3m 150mm Diameter Extraction Arm
EXT101926	3m Replacement Hose 150mm
EXT66200	Fume Extraction Hood
EXTPVC150	150mm Replacement hose 10m

TECHNICAL SPECIFICATION

Reach	3m
Rotation	180°
Diameters	150mm
Mounting Height	2200mm
Working Radius	2915mm
Vertical Movement	90°

Suction arm 3 m Ø 150 mm for wall installation						
		A	B	C	D	R
Hose	Internal joints	2915	754	2400	1837	3365
	External joints	2820	810	2300	1835	3270
Pipe	Internal joints	2815	754	2300	1835	3265
	External joints	2710	810	2200	1830	3160
