PRODUCT INFORMATION

PROTECTO WELDING BLANKETS

SUMMARY

It is essential for hot work & welding tasks to be contained and safe at all times. It is vital that security precautions are put in place to prevent spatter damage or the ignition of materials.

TARGET APPLICATIONS

The typical blanket is made out of fire retardant or fire-resistant materials and is an essential accessory for industrial welding environments. Whilst it is possible to melt and damage a welding blanket, they will never burn, therefore reducing the risk of a fire developing during hot work operations. This type of protective product has multiple uses and can be employed as an emergency solution in the event that stray sparks causing a fire.

FURTHER INFORMATION

- **Protecto 500 Super light Duty Blanket** Uncoated Super-Light Duty 550°C Glass Fibre Welding Blanket. 580g/m² weight.
- **Protecto 600 Light Duty Blanket** Coated Light Duty 600°C Glass Fibre Welding Blanket with fire retardant PU-coating with aluminium pigments to increase anti-slip properties and resistance to fraying. 710g/m² weight. Approval from DET NORSKE VERITAS, for use on ships and mobile offshore units.
- **Protecto 1000 Medium Duty Blanket** Medium Duty 1000°C Glass Fibre Welding Blanket with high temperature resistant coating to improve slide and cut resistance. 1000g/m² weight.
- **Protecto 1200 Heavy Duty Blanket** Heavy Duty 1150°C Silica Fabric Welding Blanket treated to provide excellent abrasive and fraying resistance. Retains flexibility after exposure to heat. 1150g/m² weight. Inherently non-flammable. Test for flammability unnecessary.

ARTICLES & ACCESSORIES

Part Number	Product Description
ESF5010	550°C Blanket 1m x 2 m Super Light
ESF5011	550°C Blanket 2m x 2m Super Light
ESF5015	550°C Blanket 1m x 50m Super Light
ESF5016	550°C Blanket 2m x 50m Super Light
ESF5020	600°C Blanket 1m x 2m Light Duty
ESF5021	600°C Blanket 2m x 2m Light Duty
ESF5025	600°C Blanket 1m x 50m Light Duty
ESF5029	600°C Blanket Light Made to Measure

ARTICLES & ACCESSORIES

ESF5030	600°C Blanket 1m x 2m Medium Duty
ESF5031	600°C Blanket 2m x 2m Medium Duty
ESF5035	600°C Blanket 1m x 50m Medium Duty
ESF5039	600°C Blanket Medium Made to Measure
ESF5040	600°C Blanket 1m x 2m Heavy Duty
ESF5041	600°C Blanket 2m x 2m Heavy Duty
ESF5045	600°C Blanket 0.9m x 50m Heavy Duty
ESF5049	600°C Blanket Heavy Made to Measure
