

CEPRO SONIC SOUNDABSORBING CURTAIN

Description

Cepro Sonic sound absorbing curtains offer protection against noise nuisance.

The curtains are produced with on one side mesh and one side PVC coated fabric.

Conditions for use

Cepro Sonic sound absorbing curtains are self-extinguishing and therefore withstand some welding sparks. They are, however, not suitable as a welding blanket and do not withstand open fire and intense heat.

Application

Cepro Sonic sound absorbing curtains can be used in situations where a flexible separation is required.

It can be used as a slidable curtain in combination with the Cepro rail system. The Cepro Robusto welding screen is also available fitted with a Cepro Sonic curtain.

Dimensions

Only available as a custom curtain. Maximum width 150cm, separate curtains to be connected with a Velcro closure. One side mesh and one side PVC coated fabric.
