

CEPRO PVC CLEAR STRIPS

Description

Cepro Clear strips have a thickness of 2, 3 or 4 mm and a width of 200, 300 or 400 mm. The strips can be cut and punched to any desired length. The strips are also available on full rolls (length 50 meter) or part rolls. In order to suspend the strips a plastic suspension clip is available which fits on a pipe max. Ø 35 mm.

Application

Cepro Clear glass clear transparent strips are meant for application in workplaces where protection is required grinding sparks. When the mechanical load is heavy and regular, strips are recommended.

Conditions for use

Cepro Clear strips are self-extinguishing and therefore withstand welding sparks. They are, however, not suitable as a welding blanket and do not withstand open fire and intense heat.

Characteristics

Cepro Clear strips are made of PVC.

Dimensions

The following standard dimensions are available:

200 x 2 mm	300 x 2 mm
300 x 2 mm	400 x 4 mm

Cepro Clear strips can be cut to the desired length with the standard Cepro hole pattern.

On special request we can also deliver other widths and thicknesses.
