

PRODUCT INFORMATION

ALUMINISED HEAT-GUARD PAD

EAD010AMB

SUMMARY

Small, aluminised, slip-on protective sleeve, worn over the welding glove to provide additional protection to the hand in close-up, high heat applications.

TARGET APPLICATIONS

For use in all types of welding applications such as: GMAW (MIG) welding, Flux core welding, SMAW (Stick) welding, plasma arc burning and oxy-fuel burning.

Lightweight and pliable, providing the welder maximum comfort and flexibility.

FURTHER INFORMATION

Ambidextrous and suitable for use on either hand.

ARTICLES & ACCESSORIES

Part Number	Product Description
EAD010AMB	Heat Guard Ambidextrous
ESF240040	Aluminised Flip-front Hood
EAD012	Gold Welders' Gauntlets

TECHNICAL SPECIFICATION

Which Hand	Ambidextrous
Pack	Each
Support	Elasticated Stap
