

PRODUCT INFORMATION

FLAT-FRONT HANDSHIELD

ES4434FF

SUMMARY

A Comfortable hand held polypropylene welding shield, ideal for short duration welds. The Weldability Hand Held Welding Face Mask will allow you to get close into difficult and intricate welding projects without the fear of injuring your face.

The robust handle on the inside of the welding mask provides a sturdy gripping point when holding the mask during welding. An anti-splatter lens allows you to clearly see the area you are welding while protecting your eye sight.

TARGET APPLICATIONS

Ideal for Stick and MIG welding

FURTHER INFORMATION

Robust, Polypropylene, hand-held protective welding shield with choice of apertures.

The easy to assemble welding mask complies with EN175 eye & face protection standards and is CE approved. Replacement lens kits are available.
