

PRODUCT INFORMATION

Optimus Electrode Holder

EV010140101
EV010160201

SUMMARY

Optimus is high quality electrode holder that is popular around the world for its durability, powerful grip and multi-position head, which makes it ideal for overhead welding.

Optimus is made to EN60974-11 from robust materials to provide drop resistance to approximately 2m, and includes isolation between the head, spring and body - for extra safety and increased lifetime.

Optimus will hold electrodes in 3 positions and includes cooling ribs in the handle for optimal cooling.

FURTHER INFORMATION

Electrode diameter: 2.5 to 6.35 mm
Cable connection: 2 x 9/16" UNF screw
Cable diameter: 25 - 95mm²

ARTICLES & ACCESSORIES

Part Number	Product Description
EV010140101	Optimus 400-1 400 Amp (35%)
EV010160201	Optimus 600-2 400 Amp (35%)
