

# FBE

Radial fan with high overall efficiency

# Radial fan with high overall efficiency

**FUMEX FBE** - an energy-efficient fan designed for industrial environments which can be installed both indoors and outdoors. For expelling non-explosive gases, fumes and lighter particles with an airflow of up to 27 000 m<sup>3</sup>/h (7500 l/s). The impeller has curved blades and is made from welded galvanised sheet metal.

The fan complies with the ErP Directive and is optimised for use in conjunction with the Fumex fume extraction and automatic control range. A number of accessories are available for the FBE series, designed to make installation and use easier and more efficient.

## Sound pressure $L_p$ dB (A)

Measures of the sound pressure presented in the diagrams are tested in accordance with ISO 3746, at a distance of 10 meters from the fan. Guidance for sound pressure regarding other distances, see table to the right.

Distance from fan	Sound pressure level
5 meters	+ 6dB
20 meters	-6 dB
40 meters	-12 dB
50 meters	-14 dB

## For selection of silencer

For the FUMEX FBE fan range, 250 Hz is always the determining frequency band for selection of silencer in the duct system. For reference, see tables under "Sound power level" for each fan model (page 3-9).

# Accessories

**Flexible Duct FDS**  
For connection to the inlet side, including 2 mounting clamps.

**Mounting Rail FBK**  
For easy and safe installation. (FBK included as standard on FBE 400-1950).

**Transition FBO**  
Transition on outlet side to round connection.

**Vibration Damper Kit FBV M10**  
Kit with four vibration dampers in natural rubber with hardness 60° IRH.

**Safety Switch SSB/SSB EMC**  
With lockable toggle. Two M25 bushings included. SSB EMC is copper-sheathed.

**Contactor SKO**  
3-pin contactor with over-current relay for manual reset. The over-current relay has phase loss protection. Used together with external switches or control.

**Motor Protection Switch SMB**  
3-pin motor protection switch with thermal magnetic release equipped with phase fault protection. Designed for operating and protecting fan motors.

# Specifications

## Delivery version

The fan is delivered as standard in version LG 90. Can be adapted on installation to the customer's needs in the LG versions.

LG 0

**LG 90**

LG 180

LG 270

Standardised delivery version

## Surface finish

Sheet metal parts: Stainless steel, powder-coated or electro-galvanised.

## Production

The FBE range of fans is manufactured in accordance with the following directives and standards:

- Machinery Directive 2006/42/EC
- EMC Directive 2014/30/EU
- EN ISO 12100:2010
- EN 60204-1
- ErP2015 2009/125/EC
