

PRODUCT INFORMATION

CHROME RIGGER GLOVES

DESCRIPTION

The popular, low-cost 'Canadian Rigger' style of general handling glove. Suitable for use in handling minimal-risk materials. The CE approved chrome riggers offer low abrasion & piercing protection and are typically used as a more short-term disposable solution.

EAD002

INFORMATION

These strong, lightweight general purpose gloves are well suited to any general working / handling application where a person's hands need to be protected from dirt.

The gloves are intended to be used as a cost-effective disposable option where standard protection in a minimal risk environment is required. This product is to be used for protection against minimal risks only.

This glove is CE approved and conforms to EN420.

NOTES

Weldability provides a full range of gloves, which includes a chrome 'Rigger' style (EAD002), fine hide TIG gloves (EAD006), lightweight TIG gloves and fully lined gauntlets.
