PRODUCT DESCRIPTIONS

CENTERING HEADS

STANDARD
JUMBO

PICTURE FILE: EJ07210005-6

PRODUCT DESCRIPTION:

Curv-O-Mark Centering Heads aid in the setting of centre lines, establishing angles and marks for butt-ins, locating points inside pipes and tanks, laying out keyways and measuring declivity.

The Standard model (not pictured) is used on pipe ½ inch (12mm) in diameter and larger. It has a 4-inch (10cm) Y-type head and is fitted with an adjustable dial bubble protractor and a manually operated hardened centering pin. The user must hammer the pin to make the centre mark.

The Jumbo Centering head (shown above) is for pipe 1 inch (25mm) in diameter and above. It has an 8-inch (20cm) Y-type head and adjustable dial bubble protractor. A spring-loaded hardened centering pin eliminates the need for a hammer. The user need only align the head and press the trigger to make the centre mark.

TECHNICAL SPECIFICATIONS:

Marker Model	Min. Suitable Pipe Diameter
Standard	1/2" (12mm)
Jumbo	1" (25mm)

NOTES:

WWS stock the complete line of Contour Pipe Fabrication Tools. This diverse range includes the Wrap-A-Round pipe marking guides EJ07200007 – EJ07200031, Curv-O-Mark markers EJ07210000 – EJ07210003, radius markers EJ07210010 – EJ07210013, adaptors, accessories and guides.
