PRODUCT DESCRIPTIONS

FLANGE ALIGNMENT TOOLS

FLANGE ALIGNER BASE
PIPE FLANGE ALIGNER

PICTURE FILE: EJ07210009-29

PRODUCT DESCRIPTION:

Remove the difficulty of flange aligning and squaring with a simple tool that holds a square in the required position without tying up the hands of the user.

The Curv-O-Mark Flange Aligner Base is notched at either end for ease in aligning on the centre line of the pipe and has two 25 lb (55kg) pull cast-in magnets for holding either a flat horizontal or vertical position.

The base will accept either leg of a standard or combination square and will work on pipe with diameters from 1" (2.5cm) up, requiring only the extension of the legs of the square being used to accommodate larger diameters.

Fast, accurate pipe construction is possible with the self-determining Pipe Flange Aligner. This tool inserts easily into a pipe and automatically aligns with the pipe axis.

The Pipe Flange Aligner is quickly adjustable for all types of flanges or pipe sizes ranging from 3 to 12 inches (8cm to 30cm) in diameter.

TECHNICAL SPECIFICATIONS:

Pipe Flange Aligner Base

Flange Aligner Base Magnetism: 25 lb (55kg) pull
Minimum Suitable Pipe Diameter: 1" (2.5cm)

Pipe Flange Aligner

Suitable Pipe Diameter Range: 3" – 12" (8-30cm)

NOTES:

WWS stock the complete line of Contour Pipe Fabrication Tools. This diverse range includes the Wrap-A-Round pipe marking guides EJ07200007 – EJ07200031, Curv-O-Mark markers EJ07210000 – EJ07210003, centering heads EJ07210005 – EJ07210006, adaptors, accessories and guides.
