#### PRODUCT DESCRIPTION:

The Jackson Shadow welding helmet range combines cutting-edge technology with comfort and practicality, to give the welder a unit that provides unrivalled protection, a large viewable area (4 ½" x 5 ¼"), light-weight streamlined design and a variety of wearing options.

The Shadow incorporates 'space-age' thermoplastic material, enabling it to remain lightweight and comfortable, whilst providing protection from impact and radiant heat.

The patented Adjust-O-Lok™ headgear works with the balanced design of the shell for easy nod-down.

The Shadow is shipped with all necessary lenses and is available in a choice of four shell colours; black, blue, red and silver.

#### TECHNICAL SPECIFICATIONS:

- ★ Lightest helmet in its class – Only 13.8 ounces
- ★ Streamlined narrow shell for work in tight spaces
- ★ Extended front increases throat protection
- ★ Built-in resistance to impact
- ★ Radiant heat resistance 50% more effective than other thermoplastic shells
- ★ Large lens (4 ½" x 5 ¼") for added protection and expanded work view
- ★ Variety of wearing options

#### NOTES:

The Jackson Shadow helmet is CE approved and meets the requirements of EN 169 and BS 1542.

This product is supplied with all necessary lenses.

WWS also offer the new Solex fixed-shade (10ew) auto-darkening 4 ½" x 5 ¼" filter lens, designed to fit the Jackson Shadow shell. WWS part number EJ101896
