

PRODUCT INFORMATION

THERMOPLASTIC HELMETS

SUMMARY

A solid, hard-wearing welding helmet made from durable, lightweight thermoplastic. Provides exceptional, industry-standard face and eye protection for the operator.

Popular 4 ½" x 2" Flip-up and 4 ¼" x 3 ¼" Fixed lens design, the inspection window offers clear viewing of the work surface.

FURTHER INFORMATION

2 Designs available:
4 ¼" x 2" Flip up lens holder
4 ¼" x 3 ¼" Fixed lens holder

Both designs are supplied with a comfortable headgear and shade 10 filter kit. Other sizes and replacement lenses are available separately.

Thermoplastic is a lightweight polymer that is resistant to chemicals, heat and scratches.
