PRODUCT DESCRIPTIONS

WELDABILITY "HELPER" TOOL

PICTURE FILE: ET001W

PRODUCT DESCRIPTION:

This indispensable tool is an essential component for every welder's tool-kit. Suitable for many applications, but designed specifically with the welder in mind, the "Helper" is capable of performing eight functions to assist with efficient and effective MIG / MAG welding.

The pincer-nose of the pliers is ideal for removing weld spatter from in, around and outside of a torch shroud and for drawing-out of MIG wire from a contact tip.

The blade, found further down the nose of the pliers, is ideal for cutting off excess MIG wire, whilst the purpose-designed grooves and grip-areas are well-suited for fitting and removing contact tips, insulators and shrouds.

The pliers incorporate insulated rubber grips for safe and reliable handling and are spring-loaded for easy use.

TECHNICAL SPECIFICATIONS:

Performs 8 tasks.

Pincer-nose opens to a maximum distance of: 45mm

Overall length of pliers: 215mm

Overall weight of pliers: 287 grams

NOTES:

This product is ideally suited to the MIG / MAG welding process, but can be used in TIG and gas welding to cut rods and in many other applications where gripping and cutting is involved.
