## PRODUCT INFORMATION SHEET

### ARC WELDING ACCESSORIES

#### PART NUMBERS

EW16RL  
EW25RL  
EW35RL  
EW50RL

#### PRODUCT DESCRIPTIONS

##### REUSABLE LUGS

16MM<sup>2</sup>  
25MM<sup>2</sup>  
35MM<sup>2</sup>  
50MM<sup>2</sup>

PICTURE FILE: EW16-50RL

#### PRODUCT DESCRIPTION:

This product is placed over the end of a welding cable and tightened by screwing down the fixing screws at either side. The end of the lug is then used to secure, and carry current to or from, a work-return clamp or the front terminals of some (mostly American) arc-welding machines.

The reusable nature of this product gives it a rather long life, and in many cases, a reusable lug will outlive several generations of cable that is attached to it.

The reusable lug is available to fit cable of the following sizes: 16mm<sup>2</sup>, 25mm<sup>2</sup>, 35mm<sup>2</sup> and 50mm<sup>2</sup>.

#### TECHNICAL SPECIFICATIONS:

Available to fit cable sizes: 16mm<sup>2</sup>, 25mm<sup>2</sup>, 35mm<sup>2</sup> and 50mm<sup>2</sup>

#### NOTES:

WWS also provide a range of hammer-on (e.g. EW50HO) and knock-on (e.g. EW50KO) lugs, which are less expensive, but have a shorter life.

**ALTERNATIVES:** Hammer-on Lugs (e.g. EW50HO) and Knock-on Lugs (e.g. EW50KO).
