|---|----------------------|--|
|  | EW1625PP EW3550PP | DIN TYPE PANEL PLUGS 16 – 25MM 35 – 50MM |

PICTURE FILE: EW3550PP

PRODUCT DESCRIPTION:

The WWS range of Din Type panel plugs are used to connect welding cables to the front terminals of an arc welding power source, more commonly by way of a plug-ended cable connected to a panel socket terminal, but sometimes by a socket-ended cable connected to a panel plug (e.g. when connecting some wire-feed units to power sources).

The WWS Din Type panel plugs incorporate a twist-lock system, which prevents accidental disconnection.

TECHNICAL SPECIFICATIONS:

Available to fit cable of the following cross-sectional diameters: 16-25mm, 35-50mm,

NOTES:

WWS stock a complete range of Din type connectors. This includes a range of sockets, panel plugs and panel sockets to fit cable of cross-sectional diameters of 16-25mm, 35-50mm, 50-70mm and 70-95mm.

ALTERNATIVES: Din Type Plugs EW1625P – EW7595P
