ARC WELDING ACCESSORIES

PART NUMBERS

EW35KO
EW50KO

PRODUCT DESCRIPTIONS

KNOCK-ON LUGS

35MM²
50MM²

PICTURE FILE: EW35KO-50KO

PRODUCT DESCRIPTION:

This product is placed over the end of a welding cable and secured by hammering down onto a screwdriver placed into the fixing grooves which then grip the cable. The end of the lug is then used to secure, and carry current to or from, a work-return clamp or the front terminals of some (mostly American) arc-welding machines.

This sort of lug can only really successfully be used once.

The knock-on lug is available to fit the 35mm² and 50mm² cable sizes.

TECHNICAL SPECIFICATIONS:

Available to fit cable sizes: 35mm² and 50mm²

NOTES:

WWS also provide a range of re-usable (e.g. EW50RL), tubular (e.g. EW50TL) and hammer-on (e.g. EW50HO) lugs.

ALTERNATIVES: Hammer-on Lugs (e.g. EW50HO). Tubular Lugs (e.g. EW50TL). Re-usable Lugs (e.g. EW50RL)
