

## PRODUCT INFORMATION

### WELDING CURTAINS AND FRAMES

#### DESCRIPTION

The Weldability range of ready-made canvas curtains are cut to a choice of three popular sizes, 6ft by 4ft, 6ft by 6ft and 6ft by 8ft. These are finished with hems on each side and eyelets and are fully ready for mounting to a frame or curtain pole.

Weldability offer a range of low-cost, lightweight, portable welding frames. They are capable of accommodating welding curtains that are attached to the horizontal bar by split rings passed through the eyelets in our range of curtains.

#### INFORMATION

These curtains are made of a flame-retardant green canvas and are offered in 3 sizes; 6ft x 4ft, 6ft x 6ft and 6ft x 8ft. All meet the requirements of EN1598 and are supplied with top eyelets and side envelope seams to suit a variety of methods for mounting to frames, bars, etc. The canvas material is opaque and offers complete protection from harmful UV and IR rays which can cause 'arceye' and also from sparks and spatter from the weld.

As an alternative to the fixed size portable welding frames, Weldability offer the EZ-Frame. This is an easy to assemble, universal portable curtain frame system that can accommodate a range of curtain sizes. With a fixed 6ft height, the EZ-Frame's width can be adjusted to 4ft, 6ft and 8ft.

The frames and curtains are each sold separately.

#### NOTES

Weldability also stock a range of PVC curtains in low visibility dark green PVC (for MIG, TIG and Stick) and high visibility amber (for Oxy/Fuel and Plasma). These are available in 6ft x 4ft, 6ft x 6ft or 6ft x 8ft, under part numbers EZ6X\_HA (High Amber) or LG (Low Green) as appropriate.

It is advised that you buy one split ring per foot of the width plus one, i.e. for a 6ft x 4ft you would require 5 split rings.

#### ARTICLES & ACCESSORIES

Part Number	Product Description	Part Number	Product Description
EZ6X4C	6 X 4 GREEN CANVAS CURTAIN	EZ223000S	ECONOMY FRAME 6X4 H/DUTY
