MARKAL BALL PAINT MARKERS

RED – 2 FL OZ BOTTLE
WHITE – 2 FL OZ BOTTLE
YELLOW – 2 FL OZ BOTTLE

PICTURE FILE: MBPR-MBPY

PRODUCT DESCRIPTION:

Markal Ball Paint Markers are very commonly used by welders and metal fabricators and in factories where tools, rolls, dies, bins and metal parts need to be marked for identification.

The tough, 2 fl. oz, plastic bottle has a metal-writing tip with a steel ball to regulate the flow of liquid paint. It is comfortable and easy to use and provides bright coloured, quick-drying lines or marks, which are long lasting and weather resistant.

Markal Ball Paint Markers work on almost any hard, smooth or moderately rough surface, e.g steel girders, aluminium sheet, steel pallets, etc., and is much cleaner and quicker than the paint and brush method.

Markal Ball Paint Markers are available from WWS in red, white and yellow colours.

TECHNICAL SPECIFICATIONS:

Marking Range:	-45°C to +65°C
Suitable For:	Almost any hard, smooth or moderately rough surface
Available Colours:	Red, White, Yellow
Container:	2 fl. oz. (59ml) squeezable plastic bottle with regulating steel roller ball.

NOTES:

WWS also stock many of the other products in the Markal range, which includes Valve-Action (felt-tip) markers, WWS part numbers MVAW – MVAY, Cold-Surface (crayon) markers, MBSW – MBSY, and “Thermomelt” temperature indicator sticks, MTS125F/52C – MTS850F/454C.

ALTERNATIVES: Markal Valve-Action Markers, MVAW – MVAY
Markal Cold Surface Markers, MBSW – MBSY
