

PRODUCT INFORMATION

PORTABLE WELDING SCREEN

DESCRIPTION

Easy-assembly, sturdy, mobile welding frames c/w PVC welding curtain, CE approved to BS EN ISO 25980.

Available in 1.8m x 1.8m (6ft x 6ft) and 1.8m x 2.4m (6ft x 8ft), with a Lo-vis Green or Hi-vis Amber PVC welding curtain.

Hi-vis Amber provides good visibility of the operator's activity behind the curtain at all times and the Lo-vis Green provides visibility of the arc and immediate vicinity, once illuminated. Both provide protection from UV and IR from the arc, as well as sparks and spatter from the weld. The curtain material is secured tightly to the frame with nylon ties through the eyelets, both of which are included.

Easy to connect one frame to another to form enclosures, these welding curtain and frame sets include full assembly instructions and castors for portability.

Helps create a safer working environment by protecting those passing by.

Optimised and boxed for easy shipping/storage.

ARTICLES & ACCESSORIES

Part Number	Product Description
EZFRAMBER	Amber PVC welding curtain & frame 1.8m x 1.8m (6ft x 6ft)
